668 N Riverpoint Blvd Suite A, Spokane, WA 99202

Keynote - April 20th at 3PM

Dr. Craig Panos, M.D.

Free Admittance | Open to the Public

At the Inland Northwest Brain Injury Symposium (aka TBI Panel Symposium), we facilitate real conversations, education, and advocacy for the betterment of our community and beyond. Our intention is to showcase both professional (researchers/practioners) and brain injury survivor perspectives to create a holistic presentation and relative discourse of life after a brain injury. To that end, we welcome students, professionals, caregivers, and other relevant populations to join us in discussing several topics concerning brain injury and disability.

The 2018 Symposium will feature presentations and panels on Pediatric Brain Injury, EEG Biofeedback, TBI and Employment, Veterans and TBI, Disability in Rural America, Cognitive-Communication Problems, TBI Rehabilitation, and several others. Our keynote address for 2018 will given by Dr. Craig Panos from Kootenai Health.

Primary Organizers: *TBINetwork, EWU Psychology, and Brain Energy Support Team*
